EDUCATION

University of Cincinnati Cincinnati, OH
Bachelor of Science in Information Technology. GPA: 3.9 / 4.0. *Expected Spring 2029*
Relevant Coursework: Primary Focus: Software Application Development, Secondary Focus: Data Technologies

EXPERIENCE

UX/UI Designer Intern May 2026 – Aug 2026
Nourishubs *Remote*
- Created detailed wireframes and interactive prototypes in Figma and designed and maintained a set of reusable UI components within a broader design system to ensure visual and functional consistency across the platform
- Collaborated with developers throughout the design-to-development handoff process, presenting design work and iterative updates to stakeholders and cross-functional team members to refine the overall user experience

Teaching Assistant, ITLC Aug 2026 – Present
University of Cincinnati *Cincinnati, OH*
- Serve as Teaching Assistant across four course sections: two sections of Data Technology Essentials, plus Computer Networking and Implications of IT, grading assignments and exams while providing consistent, constructive feedback
- Hold regular office hours across all four sections to answer student questions, reinforce key concepts, and provide one-on-one support on coursework and assignments

IT Intern Sep 2025 – Aug 2026
Rossford Junior-Senior High School *Rossford, OH*
- Troubleshot hardware and software issues and maintained a large fleet of school-issued devices, including Chromebooks and laptops, handling setup, software updates, routine maintenance, and repairs to minimize classroom downtime
- Resolved more than 20 helpdesk tickets each week, communicating with staff and students while tracking and escalating recurring problems, and assisted IT staff with basic network and system administration tasks

PROJECTS

FixMate Spring 2026
Personal Project
- Built a fully responsive React frontend for a home-services discovery platform designed to help users browse, evaluate, and connect with trusted local service providers for household needs
- Developed and deployed the application using React and Vite, shipping a live, production-ready MVP hosted on Vercel for public use and testing
- Designed and implemented a scalable component architecture with intuitive UI flows to support smooth service discovery, provider browsing, and user navigation throughout the platform

ACTIVITIES & LEADERSHIP

UC Ronald McDonald House Spring 2026 – Present
Member
- Volunteer regularly to plan and organize events for children and families staying at the House during medical treatment, helping provide comfort and a sense of normalcy

Cincinnati Regional Science Olympiad Tournament, Xavier University March 2026
Event-Day Volunteer
- Supported day-of tournament operations, including participant registration, event scoring, and general logistics, for a regional STEM competition to ensure smooth execution of events for middle and high school teams

AWARDS & HONORS

- Dean's List, University of Cincinnati — Fall 2024 – Present
